Enter chemical content for the whole article. The concentration is calculated at component level according to the principle of “once an article always an article”.

Is there a safety data sheet for the article? Is there classification of the article?
Enter which version of the candidate list has been used (Year, month, day):
2018-06-27

The article is covered by the RoHS Directive:
No

Enter how large a proportion of the material content has been declared [%]:
100

If the article contains nanomaterials deliberately added to obtain a particular function, enter these here:

Is the article registered in Basta?
No
