

# PAROC Cutting table & knives

PAROC Cutting table (XTT 001)

PAROC Cutting table knife (XTK 002)

PAROC Insulation knife HD (XTK 005) and Insulation Knife LD (XTK 003zdy)

**PAROC Cutting table** (XTT 001) is designed to facilitate insulation work and reduce cutting waste during installation. Cutting the insulation to the desired shapes and dimensions on the table increases the ergonomics of working.

The cutting table has a stepless adjustment for insulation of all thicknesses and bevels of different degrees. The angle scales on the surface of the table make it easier to cut slanted edges.

The cutting table's light weight (14 kg) and design allow it to be used on all kinds of work sites. The table can be folded up for transport and storage. The cutting table comes with a long **PAROC Cutting table knife** (XTK 002), which is also available separately.

Paroc also has a selection of insulating knives:

**PAROC Insulation knife HD** (XTK 005) is a long-bladed, sturdy wool knife for professional use. The blade of the knife is especially suitable for cutting semi-rigid and rigid insulations.

**PAROC insulation knife LD** (XTK 003zdy) is a sharp, fine-edged, and light wool knife for installing soft stone wool slabs and Cortex insulation. The knife has a wooden handle and a 300 mm long blade. Measuring marks have been added to the blade to make work easier.
